Thusly and so beneath, a blood moon shine  
Upon the world so crystalline  
Until a loud cry crossed the night  
Over the iced white shred of light

A universal beginning,  
A minature echo of the birth of time  
Will tumble upon abominable life giving delusional  
mind

The rain of limbs and babies  
Of which they were a part,

And the terror of the destiny rushing them from below

Becoming a cancer,  
You have become a plague upon yourself

Life's but a walking shadow,  
A tale told by an idiot,  
Full of sounds and fury signifying nothing!

The more I see, the more am I disgust  
Hale and detest that animal called man!
