I failed, your test
I fought, the best
You broke, me down
You took, your time

Your in my head
My head, my head again
Your in my head
My head, my head again

You saved the blessed
Controlled the rest
To change our ways
We separate
To feel ashamed
To point the blame
Let's break away
It's not too late

Your in my head
My head, my head again
Your in my head
My head, my head again
I tried to stop the bleeding
You're always in my way
Why are you so deceiving
Your in my head again
