

Branded With Fear "Promises"

Visit "[Promises](#)" on MotoLyrics.com

We cannot see, the light is lost
Why can't I breath, why can't I trust
We cannot change, the truth denied
Why can't I heal, this pain inside
Why must I, change my mind, with all I know

Your promises, your empty words
They're fading out, without a sound

I've figured out, what went wrong
It's not to say, the hate is gone
I know my faults, do you know yours
Why can't I heal, this pain you've caused

Why must I, change my mind, with all I know

Your promises, your empty words
They're fading out, without a sound
