

Branded With Fear **"There's More To Life"**

Visit "[There's More To Life](#)" on MotoLyrics.com

Everything is closing in
And you can't see what lies ahead
Try to find the will to live
I know you think your better dead
Wake up every single day
Wish this pain would go away
I know exactly how you feel
But you must try to wait

Think of all the people
The friends that you will leave behind
Imagine all the pain you'll cause
If you go and end your life
There's more to life just give it time
There's more than suicide

Wash your face and dry your eyes
Maybe now you'll realize
All the pain you keep inside
You don't have to lie
A better life is just ahead
But you just go on what they said
Don't think that they don't care
It's just that they were never there

Think of all the people
The friends that you will leave behind
Imagine all the pain you'll cause
If you go and end your life
There's more to life just give it time
There's more than suicide
