Hey there what's that in your sky  
With all the pretty lights  
You think I can get that high?

Hey you man, where's your motivation  
And why the celebration  
You've gotten nothing done here

You wanna live until you  
Die alone and will  
Fly alone and will  
I'm not so far below  
I live beneath your sky  
With tainted eyes,  
I've made my mind  
To live until I die

Run run run catch me if you can can can  
Come and hold my hand and I'll be your biggest fan  
Followers living in your hollow words  
I have seen your nine to fives  
Wash away your dreams

You wanna live until you  
Die alone and will  
Fly alone and will  
I'm not so far below  
I live beneath your sky  
With tainted eyes,  
I've made my mind  
To live until I die
