Remember when our love was sweeter then candy.  
Aint nothin better be because you know you had me.  
Good love comes a dime a dozen.  
True love makes you want for nothing.  
Dont you forget it baby.

Way back in high school girl you cant forget your first.  
We used to sneak up out of class and lay up all day  
long.  
Whenever you would try to replace me your memory  
comes in handy.

[Chorus:]

Girl you know where ever you are im not far.  
My loves a memory.  
Wherever you go girl you know you gon remember me.  
My touch my taste my scent you gon remember.  
Girl wherever you go you gonna remember me.

Girl think about the times we shared.  
And how it was nice in the rain it matched the tears that  
we shared.  
And how id hold you tight on those days when school  
really stressed you out.  
Now we in college girl i helped you through the worst.  
I showed you that you need me like you did before.  
Whenever you would try to replace me your memory  
comes in handy.

[Chorus:]

Girl you know where ever you are im not far.  
My loves a memory.  
Wherever you go girl you know you gon remember me.  
My touch my taste my scent you gon remember.  
Girl wherever you go you gonna remember me.
