Hahah ha uh uh uh x3

My love for you goes beyond singin' it, I can only
deliver it, clear it, or seal it

Like we be a deal

I wanna give it to you like a stripper to give it to, a
nigga that claim me a mister and that he wont forget,
uh

I wanna pay more attention to ya (How much do I owe
ya)

I die for ya and show you that I'm sweet as me know ya
I wanna get to know ya in and out, so you can go in and
out, right outta my house around nine on the cline

Chorus:

I be takin' notes on you like you be a test (test)
Got me smiling so bright like I be brushing with crest
(crest)

Roll the ' purple blunt up, so I won't stress (stress)
You're the best, definitely different from all the rest
If you ask me to marry baby I'll say yes
I want no less, I'm so blessed to give you a nest
I'll be talkin' bout our love, till in peace we rest
And after that...how much you wanna bet

You got me jumpin' like bungee, I'm askin' how high
Sweet as mum's potato pie, now that's a fly guy
He be havin' me trippin', like I be a bitch bitch
But he know that in my intentions, sometimes i get
caught off thinkin'

Just a lil' too much, sometimes I get jealous
Sometimes I question your trust, but you be hangin'
with me

Cause I be solid as a rock, keep steppin' it up a notch
Watch over your flock and put bullets in all your glocks

Chorus:

I be takin' notes on you like you be a test (test)
Got me smiling so bright like I be brushing with crest
(crest)

Roll the purple blunt up, so I won't stress (stress)
You're the best, definitely different from all the rest
If you ask me to marry you baby I'll say yes
I want no less, I'm so blessed to give you a nest
I'll be talkin' bout our love, till in peace we rest
And after that...how much you wanna bet

He said, "I'm keepin' thin, like paper yeah she's a
keeper, a lil' deeper
Than all them other people that they used to sleep up
She keep it going like the bonnie with the drum
Going ruppa-pum-pum, while im chillin' sippin' on that
rum"
He said, "She made me a better man, cause I was a
rich hoe,
Married to a hoe, that married me for my dough"
Keepin' my king coming, like a kingdom, like I got a
reason to love him and hug him
And get em dirty even, like Christina
Chorus:
I be takin' notes on you like you be a test (test)
Got me smiling so bright like I be brushing with crest
Roll the purple blunt up, so I won't stress (stress)
You're the best, definitely different from all the rest
If you ask me to marry you baby I'll say yes
I want no less, I'm so blessed to give you a nest (My
king)
I'll be talkin' bout our love, till in peace we rest
And after that...how much you wanna bet
