

You act one way when you are around me  
When we are in public you are so different  
I know that you treat me bad but I can't get away  
Let's just keep it undercover  
I don't wanna be embarrassed so

I don't want anybody to know  
Don't want anybody to know  
Didn't we decide that  
That we are together man  
We don't want anybody to know  
Anybody what we do when we're alone  
We don't want anybody to know  
Don't want anybody to know

Didn't we decide that  
Didn't we decide on this?  
We don't want anybody to know  
Nobody has to know about us  
What we do when we're alone  
We could be a mystery  
We don't want anybody to know

Tell me if I've made it clear to you  
If you can't understand this then maybe we need  
To give up on each other until you believe  
Everthing we go through is all because of you  
And you don't have to do the things that you do  
'Cause I've been the same since we began  
So baby, will you make a change?  
Will

We don't want anybody to know  
Don't want anybody  
Didn't we decide that?  
To question what we do  
We don't want anybody to know  
Don't want anybody  
What we do when we're alone  
We don't want anybody to know  
It's big in between

Didn't we decide that?  
We don't want anybody to know  
Nobody has to know  
What we do when we're alone  
We don't want anybody to know  
Don't want anybody  
Didn't we decide that?  
No we did not

We don't want anybody to know  
What we do when we're alone  
We don't want anybody to know  
We don't want no one to know  
Didn't we decide that?  
We don't want anybody to know  
Anybody we don't want no one to know ha ha

We don't want anybody to know ha ha  
We don't want anybody to know  
We don't want no one to know  
We don't want anybody to know  
We don't want no one to know  
We don't want anybody to know  
We don't want

We don't want anybody to know  
We don't want no one to know  
We don't want anybody to know  
We don't want no one to know  
We don't want anybody to know  
We don't want no one to know  
We don't want anybody to know
