Boy, I saw you soon as you came bouncing through the door

You and your mans and them just took over the floor
Started doing your thing and it made me notice you even more

The way you turned around and looked at me it seemed as though
You must have somehow felt me staring on the low
Something tells me you're the kind of guy I'd like to get to know

I ain't even gonna front, I ain't even gonna lie
Since you walked up in the club, I've been giving you the eye
We can dance if you want, get it cracking if you like
Must be a full moon, feel like one of those nights

Why is this the first time I'm seeing you around?
Could you be visiting or are you new in town
Yeah, whatever the case
I'm feeling you right here and right now

Your smile and all the love you showing
Lets me know that you like what you see
And wanna get to know me too
This could very well be a start of something special
Happy that I met you

I ain't even gonna front, I ain't even gonna lie
Since you walked up in the club, I've been giving you the eye
We can dance if you want, get it cracking if you like
Must be a full moon, feel like one of those nights

I ain't even gonna front, I ain't even gonna lie
Since you walked up in the club, I've been giving you the eye
We can dance if you want, get it cracking if you like
Must be a full moon, feel like one of those nights

I didn't think that I'd come here tonight, meet someone

like you
Start feeling the way I do seems like we've known each
other
Most of our lives after one conversation, this must be
right

I ain't even gonna front, I ain't even gonna lie
Since you walked up in the club, I've been giving you
the eye
We can dance if you want, get it cracking if you like
Must be a full moon, feel like one of those nights

I ain't even gonna front, I ain't even gonna lie
Since you walked up in the club, I've been giving you
the eye
We can dance if you want, get it cracking if you like
Must be a full moon, feel like one of those nights

I ain't even gonna front, I ain't even gonna lie
Since you walked up in the club, I've been giving you
the eye
We can dance if you want, get it cracking if you like
Must be a full moon, feel like one of those nights
