Brandy
"Bring me down"

I always knew that one day
They'd try to bring me down, way down, way down
One day, they'd try to bring me down
Always knew that one day, they'd try to bring me down,
way down
They'd try to bring me down

We gon' last today, we have to pray
Besides what the pastor say, I have to say
Since Pac passed away
Most you rappers don't even deserve a track from me

You see, if you ever wanted to ever be anything
There'd always be somebody that shoot down any
dream
There'll always be haters, that's the way it is
Hater niggaz, Mary hater bitches and have hater kids

But they gon' have to take my life 'fore they take my
drive
'Cause when I was barely livin', that's what kept me
alive
Just the thought that maybe it could be better than what
we at at this time
Make it out of this grind, 'fore I'm out of my mind

And get some lee way on the he say she say
You girl don't like me, how long has she been gay
Spanish girls say, "No able ingle"
And everybody want to run to me for their single

It's funny how these wack niggaz need my help
Wasn't around when I couldn't feed myself
Dog, if I was you, I wouldn't feel myself
Dog, if I was you, I'd kill myself

Made a mill myself, and I'm still myself
And I'ma look in the mirror if I need some help
Now, ask me from the heart, y'all all frontin'
Everybody feel a way about K but at least y'all feel
somethin'

Why you come here, [Incomprehensible]
I bet it only it was forget to get ya, what kind of dream
we found
See I'm often at your cross ways forgetting it was that
heaven let ya
And tried to bring me down

I always knew that one day, they'd try to bring me down
Way down, way down
Always knew that one day, they'd try to bring me down
Way down

Always knew that one day, they'd try to bring me down
Way down
They'd try to bring me down
Down, down, down, down
