I know that it's late
And maybe I shouldn't be so into you
It's just that tonight
I am so taken, I'm falling for you
When I look in your eyes I can see
A million possibilities
And I know you'll be leaving me soon
But tonight

Come a little bit closer
Let me hold you baby
I will be good to you
And we can try
To forget tomorrow
And make it last forever tonight

So if you must go
Know that I'll be missing you, wishing you closer
So let's make the most of these
Moments together, we'll never forget
And it's breaking my heart 'cause I know
That tomorrow you'll be miles away
And I catch myself wanting so much more (more,
more)
Tonight (Come closer)

Come a little bit closer (A little bit closer)
Let me hold you baby (hold you baby)
I will be good to you (good to you)
And we can try (we can try)
To forget tomorrow (tomorrow)
And make it last forever tonight (make it last yeah,
forever tonight)

So if you're leaving me now (leavin me now)
Baby I don't know how
I will ever get over you
Because you opened my eyes (opened my eyes)
To this love that's inside
Oh baby, baby, don't ever, ever leave me

Come a little bit closer

Let me hold you baby
I will be good for you
And we can try
To forget tomorrow
And make it last forever tonight x3
