im dryin all up
ima change all the plans
so i can take a stand
ima clear it up
im dryin all up
ima change all the plans
so i can take a stand
storm is over

im in here freezin my mouth turnin blue
this time not from screamin
but cryin for you
you gave me a teardrop i gave you a flood
but im lost in here now and you just gave up

i cant believe its over takin me
feel like im drownin from the hurt o no
my feelings were securing me
but now the dam has let my feelings go

love is a natural disater
cant stop it from happenin
just make the day after
day after the flood
its like a natural disaster im gonna outlast it
till the day after day after the flood

im dryin all up
ima change all the plans
so i can take a stand
ima clear it up(3x)
im dryin all up
ima change all the plans
so i can take a stand
storm is over

im floatin in sorrow im way past a leak

i feel a tsunami right here on my cheek
but after the storm i can see my relief
cuz all of my pain is floatin around me

i cant believe its over takin me
feel like im drownin from the hurt o no
my feelings were securing me
but now the dam has let my feelings go

love is a natural disater
cant stop it from happenin
just make the day after
day after the flood
its like a natural disaster im gonna outlast it
till the day after day after the flood

im dryin all up ima change all the plans
so i can take a stand ima clear it up(3x)
im dryin all up ima change all the plans
so i can take a stand
storm is over

i cant believe its over takin me
feel like im drownin from the hurt o no
my feelings were securing me
but now the dam has let my feelings go

love is a natural disater
cant stop it from happenin
just make the day after
day after the flood
its like a natural disaster im gonna outlast it
till the day after day after the flood
