I look at your beautiful face  
But I don't know what lies underneath  
And the words seem to fly into space  
And they're driving a wedge in between

I'm scared of the risk that I'm taking  
While you're pushing me close to the edge  
Feel the laws of gravity breaking  
As I take that leap of faith

Don't look down, just stand up  
I decide who I'm gonna be  
I lied to myself, I've given enough  
I can't hide behind my fear of flying

(I need you)  
My fear flying  
(I need you)  
I've got a fear of flying  
(I need you)  
My fear of flying, oh

What happened to your adoration?  
Take me to where we began  
Give me a little more patience  
'Cause it's time I'll understand

Is it too late to bathe in your light?  
'Cause I wanna come out of the shade  
I'm ready to make it alright  
And forgive the mistakes that were made

Don't look down, just stand up  
I decide who I'm gonna be  
I lied to myself, I've given enough  
But I can't hide behind my fear of flying

(I need you)  
My fear flying  
(I need you)

I've got a fear of flying

(I need you)  
My fear of flying, oh whoa

A piece of me could give for free  
But it's worthless if we don't have honesty  
If we don't have honesty  
Oh oh oh, whoa

I know it's hard but if you care  
Then we're wingless  
And we're floating in the air  
And we're floating it in the air

Don't look down, just stand up  
I decide who I'm gonna be  
I lied to myself, I've given enough  
But I can't hide behind my fear of flying

(I need you)  
My fear flying  
(I need you)  
My fear of flying  
(I need you)  
My fear of flying, oh

Don't look down, just stand up  
I decide who I'm gonna be  
I lied to myself, I've given enough  
But I can't hide behind my fear of flying

(I need you)  
My fear of flying  
(I need you)  
My fear of flying  
(I need you)  
My fear of flying, oh whoa
