

Brandy "First & Love"

Visit "[First & Love](#)" on MotoLyrics.com

I ain't getting no younger
So boy when I say love
I don't say it just to say love
I know better
If u never showed love
I don't think I would've known love
Gone put it in my song love
And sing it over and over

I told my mother that I luv ya
My brother asked where I met ya
Said I saw u last Tuesday on the corner of 1st and luv
I heard ya
Whistling my favorite song
When I saw your head moving on the corner of 1st and
luv

Right there, right there... Oh
And I wanna sing it to the world
He's right there, right there, right there

I put my hand on my heart
I felt it beating like a bass drum
I heard cupid in my ear
He said he never saw better
I gave him a str8 shot
And it hit me like a moving truck
Un hunh like an atom bomb
But it never felt so good

I told my mother that I luv ya
The preacher asked where I met ya
Said I saw u last Tuesday on the corner of 1st and luv
I heard ya
Whistling my favorite song
When I saw your head moving on the corner of 1st and
luv

Right there, right there... oh
And I wanna sing it to the world
He's right there, right there, right there

Love
Sincere and deeply
Love
Know that it's meant to be
Love
Don't feel like love to me
Know
Know that it had to be love

Like our names carved on a tree
They're memories inside of me
Don't know how long forever is
But, you stay with me and find out with me
Oh if the sun don't rise for weeks
Baby that's alright with me
I can't lie to infinity
But if u stay with me
U can count on me

Right there (I'm so right there)
Right there (ooh it's on 1st and luv where I say my
baby)
And I wanna sing it to the world
Right there (right there)
Right there (right there)
Right there
I saw u by the street signs, said I saw u by the street
signs, stay right there,
On first and luv, luv, luv...
