"First N Luv"

Visit "[First N Luv](#)" on MotoLyrics.com

I ain't gettin' no younger
So boy when I say love
I don't say it just to say love
I know better
And if you never showed love
Don't think I woulda known love
Gotta put it in my song, love
And sing it over and over

I told my mama that I love ya
My brother asked where I met ya
Said I saw ya last Tuesday on the corner of "1st" and
"Love"
I heard ya
Whistling my favorite song
When I saw ya that morning on the corner of "1st" and
"Love"

Right there, right there, ohh
And I wanna sing it to the world
He's right there, right there
On the corner of "1st" and "Love"

My heart is beating like a bass drum
I heard Cupid in my ear
He said he never saw better
I gave him a straight shot
And it hit me like a moving truck
Ohh, like an atom bomb
But it never felt so good

I told my mother that I love ya
Bridget asked where I met ya
Said I saw ya last Tuesday on the corner of "1st" and
"Love"
I heard ya
Whistling my favorite song
When I saw ya that morning on the corner of "1st" and
"Love"

Right there (right there)

Right there (right there), ohh (oh)
And I wanna sing it to the world
He's right there (he's right there)
Right there (saw my baby right there)
On the corner of "1st" and "Love"

This ain't serendipity, no
I know that it's meant to be
Love
Don't feel like luck to me, no (love to me, no)
Know that it had to be love

Like our names carved on a tree
The memories inside of me
Don't know how long forever is
Would you stay with me, and find out with me
Oh if the sun don't rise for weeks
Baby that's alright with me
Can't add to infinity
But if you stay with me
You can count on me, ohh

Right there (I'm so right there)
Right there (Ooh, it's on "First" and "Love" where I saw
my baby)
And I wanna sing it to the world (ohh)
He's right there (right there)
Right there (right there)
On the corner of "1st" and "Love"

I saw you by the street signs, oh I
Saw you by the street signs
That read "1st" & "Love"
Love, love, love...
