Visit "[Follow Me](#)" on MotoLyrics.com

follow me
anywhere
everywhere
come to me
show you things
you've never seen
trust in me
guaranteed
i'll never leave
fall in love
with me, baby please

come take my hand
let me guide you
show you the way
where love abides
let yourself go
forget all you know
set your love free
surrender it to me

[chorus]

it's clear love is right here
i adore you
i want to give you
give you all of me

follow me
anywhere
everywhere
come to me
show you things
you've never seen
trust in me
guaranteed
i'll never leave
fall in love
with me, baby please

don't rush away
stay in this moment

while i contemplate
what i'll show you
focus on me
lose inhibitions
your fantasy
your reality

[chorus]

it's clear love is right here
i adore you
i want to give you
give you all of me

follow me
anywhere
everywhere
come to me
show you things
you've never seen
trust in me

guaranteed
i'll never leave
fall in love
with me, baby please

there is no height
nor any distance
my love won't go to
to satisfy
you're all i need
another won't do, no
take all of me
everything you need

[chorus]

it's clear love is right here
i adore you
i want to give you
give you all of me

follow me
anywhere
everywhere
come to me
show you things
you've never seen
trust in me
guaranteed

i'll never leave
fall in love
with me, baby please

i hear you calling me
in the middle of the night
because i want you
i'll be there
i gotta make you mine
all night
say you want me

[chorus]

it's clear love is right here
i adore you
i want to give you
give you all of me

follow me
anywhere
everywhere
come to me
show you things
you've never seen
trust in me
guaranteed
i'll never leave
fall in love
with me, baby please
