Boy I saw you soon as you came bouncin' through the door
You and your man's and them just look over the floor
Started doing your thing
And it made me notice you even more
The way you turned around and looked at me
It seemed as though you must have somehow felt me
staring on the low
Something tells me your the kind of guy I'd like to get
to know

I ain't even gonna front
I ain't even gonna lie
Since you walked up in the club
I've been giving you the eye
We can dance if you want
Get it crackin' if you'd like
It must be a full moon
Feels like one of those nights

Is this the first time that I'm seeing you around?
Could you be visiting or are you new in town?
And whatever the case
I'm feeling you right here and right now
Your smile and all the love you show
It lets me know that you like what you see and wanna
get to know me too
And this could very well be the start of something
special
I'm happy that I met you ... baby

I ain't even gonna front
I ain't even gonna lie
Since you walked up in the club
I've been giving you the eye
We can dance if you want
Get it crackin' if you'd like
It must be a full moon
Feels like one of those nights

I ain't even gonna front
I ain't even gonna lie

Since you walked up in the club
I've been giving you the eye
We can dance if you want
Get it crackin' if you'd like
It must be a full moon
Feels like one of those nights

I didn't think that I'd come here tonight
And meet someone like you and start feeling the way I
do
Seems like we've known each other most of our lives
After one conversation
This must be right

I ain't even gonna front
I ain't even gonna lie
Since you walked up in the club
I've been giving you the eye
We can dance if you want
Get it crackin' if you'd like
It must be a full moon
Feels like one of those nights
