Turn me up a little louder!

I started writing the music in my head,
I'm gonna find no words while I'm still open there,
You give me hope, you give me love, you give me faith,
So I sing this lyric about this love we share.

I don't know what I ever do without your love!
But now I'm alright!
I will never get enough!
Will you take control of me,
When you call me so, so sweet,
And now I'm singing what I'm feeling!

Chorus:
I can't until you get home,
I wanna sing you this song!
You can call me on the phone,
I wanna sing you this song!
I haven't seen you for so long,

Wanna sing you this song!
This song! This song!
A little louder, a little louder!
I can't until you get home,
I wanna sing you this song!
You can call me on the phone,
I wanna sing you this song!
I haven't seen you for so long,
Wanna sing you this song!
This song! This song!
A little louder, a little louder!

With the music on my ear you sound so clear!
A simple melody and harmony's on air.
I can't hear you in the beat of my old drum,
So I think about you while I sing this song!
