I would like to get to know if I could be
The kind of girl that you could be down for
'Cause When I look at you I feel something
Tell me that your the kind of guy that I should make a
move on
And if I don't let you know
Then I won't be for real
I could be wrong but I feel like something could be
going on
The more I see you the more that it becomes so true
There ain't no other for me it's only you

Chorus:

I wanna be down
With what you're going through
I wanna be down
I wanna be down with you
No mather the time of day or night it's true
I wanna be down

I know anybody's gonna be lonely
Without the reason they got someone to care for
Maybe all you need's a shoulder to cry on
If that's a fact than I'll be more that you ever could
dream of
If all you need is time that i got plenty of
I'll dedicate all my love untill you call baby
I wanna stay by your side
Be there to call you up
And let you know everything will be all right

repeat Chorus X2

i wanna be down is the song title not **i wanne be
down *
