How do you suppose
All of this happened
I used to be
Your number one hit
First you put me
Second after trappin'
U made a little dough
Then I was 5th
Or 6th then 7th
I couldn't help
But to laugh when
Your heart
Started to lose
All of its strength
You used to be
The only one
On my list
And now
You're wonderin' why
You're 10th
I tryna get thru
You too confused
I've only
Ever been the main

I was finna be
A little pissed
You can count on
All of them
Other chicks
You can count on me
To just quit
I don't wanna be
On that list, no more
I don't wanna be
On that
I don't wanna be
On that list
Said I'm cool
I don't wanna be
On that list
Number 1

Not number 3 on that
Number 1 cuz
I'm the best thing
In your life
Boy
You got me mixed up
Better rip
That list up
Me on that list
No list
Got me no more
I'm cool

First off all
I'm the bomb
Boy look around
Is ya dumb
And second
I'm the one
You get
Everythin from
Third of all know
Your mom told you
That I'm the one
What you
Runnin around
Lookin 4?
Must be drunk
Put down the 5th
And I can think
Of almost 6 times
7 digits almost 8
Up your chance
You actin
Like your love
Got 9 lives
If it did, so what?
You killed it more
Than 10
