Chorus

We use to hold hand
Live over life together
We use to be happy
day are gone
Just find bout it I want to be over as you're baby
Long as I can remember
I know you're not fan of mine
Just think bout it
How can you get over me love will exist
Long as I can remember

We use to our life separate from each other
that was the plan for us
our bright for us
I know this ainrt us we would talk it out first
Long as I be here
I know we through
We finishh talk
Long as I can remember
