Who would ever thought a guy would want a girl like  
me  
Who would ever thought that I would fall so easily  
Who would ever thought that we would finally come to  
be  
I guess they just don't know how much you mean to me  
Who would ever thought that they would have some  
words to say  
We'll go on anyway, it's alright, it's okay  
Take whatever comes our way together we will stay  
I got three words to say, "Never say never"

I can't believe they stopped our happiness  
By tryin' to pull us down with such a mess  
Why can't they let us live just like the rest  
And keep us out of all this crazy madness?  
Now when they talk I think it's just a shame  
That all they do is sit and take my name  
When all that I do is mainly  
Sit and think about my baby and me

Now baby they can't believe that you and me are  
together  
That's why they should have never, never said never  
There were times when we thought that  
You and me could never be together  
That's why we should have never  
Never said never said never

Who would ever thought a guy would want a girl like  
me  
Who would ever thought that I would fall so easily  
Who would ever thought that we would finally come to  
be  
I guess they just don't know how much you mean to me  
Who would ever thought that they would have some  
words to say  
We'll go on anyway, it's alright, it's okay  
Take whatever comes our way, together we will stay  
I got three words to say, "Never say never"

Now there's a lot of talkin' goin' round

About the way me and you gettin' down  
What, are they jealous, are they hatin' me?  
I guess they all have their own Ph.D's  
I wish that they would just stop sweatin' me  
Stop tryin' to get the best of me  
No matter what they say baby  
We gotta move on 'cause we're gonna be happy

Did let the thoughts that we had  
Did let the words that they said  
Keep us from the love we now have  
Never say never  
Simply for me to see when  
Never would've been never if allowed  
Now that we are together never say never

Who would ever thought a guy would want a girl like  
me  
Who would ever thought that I would fall so easily  
Who would ever thought that we would finally come to  
be  
I guess they just don't know how much you mean to me  
Who would ever thought that they would have some  
words to say  
We'll go on anyway, it's alright, it's okay  
Take whatever comes our way, together we will stay  
I got three words to say, "Never say never"

Never say, never say, never say, "Never"  
Never say, never say, never say, "Never"  
Never say, never say, never say, "Never"

Who would ever thought a guy would want a girl like  
me  
Who would ever thought that I would fall so easily  
Who would ever thought that we would finally come to  
be  
I guess they just don't know how much you mean to me  
Who would ever thought that they would have some  
words to say  
We'll go on anyway, it's alright, it's okay  
Take whatever comes our way, together we will stay
