Chorus

Your the only one for me
you'll be a legend can't you see
you'll go down in history
your the only one for me

Verse 1

I've been waiting all night long
and holding til the break of dawn
so baby think heavily
cause you make a very part of me
and when we fight and we pull apart
he makes his way and crawls back into my heart
and makes me feel good about myself
the way I never felt

Chorus

Verse 2

A million times you cross my mind

Think about you all the time
you can have my heart for free
so i know it can be nice of me
it feel so good i dont have to hide
all the deepest things i feel inside
and now with you i can touch the sky
I need you just to realize

Chorus

it feel so good i dont have to hide
all the deepest things i feel inside
and now with you i can touch the sky
I kept you just to realize

Chorus(with ad-libs til fades)
