[Intro]

Iâ€™™ mma put it down, you gon' fall in love  
Iâ€™™ mma put it down down, you gon' fall in love (x2)

Now when I got that call from Brandy,  
Perfect Scenario,  
You know I had to, know I had to, smash on the radio

[2 Chainz]

Keesha, Aicia, Trina, Patricia,  
Sandy, Candy, Brandy, Moeesha,  
I pledge allegiance  
To the events and Ativan  
Took my advance to the club  
And made her rain dance  
Told her bout the standard  
Hit her with the dealers (D-list?)  
My new girl thicker  
told my old girl to ....  
Im riding with my seatback, feet up  
She a dime, she's the one, plus a nina  
You know the procedure, I put it down  
Known to eat your girl, like supper time  
Love me now, or not at all  
My money long, her waist is small

[Brandy]

Ooh your talk and you're so tough  
Damn I love it all  
Even the way you flex  
That's what turn me on  
Ooh you know you make weak  
Just cause the way you are  
Cause everybody in here  
Know that you're a star  
Baby still I'm letting you know  
I've got the sweetest high (heart?)  
Any man that wants it babe  
He gon' have to work hard

From what I see youve got what I want  
But that's just half the part  
I've got to see what you put on it  
To make sure you're the one

[Chorus]

If you put it down right, like the way I want it  
Play you're cards right, maybe we can fall in love  
If if if you put it, put it, if if if you put it down  
If if if you put it, put it, maybe we can fall in love

lâ€™™ mma put it down, you gon' fall in love  
lâ€™™ mma put it down down, you gon' fall in love  
If if if you put it down, maybe we can fall in love (x2)

[Tyga]

T-raw, they don't call me raw for no reason, it's obvious  
I'm puttin it down, I put it down  
And I keep that sex anonymous  
Monogamy, I know a nigga free  
1 on 1 it's just you and me  
Don't be actin' all crazy  
But I like it when you start talkin' crazy  
Talkin that, pull my hair  
choke me shit, she lovin it  
Grab my hands on that little bitty waist  
And you know I'm the king, so I dominate  
All of that ass  
Only thing missing is fries and shake  
Mask on, lights off  
Now that's what I call a blind date

[Chorus]

If you put it down right, like the way I want it  
Play you're cards right, maybe we can fall in love  
If if if you put it, put it, if if if you put it down  
If if if you put it, put it, maybe we can fall in love

lâ€™™ mma put it down, you gon' fall in love  
lâ€™™ mma put it down down, you gon' fall in love  
If if if you put it, put it, maybe we can fall in love (x2)

[Brandy]

You you you, can be the one I call  
When I'm having a bad day, and I need a shoulder to  
cry on  
You you you, might the change the way I feel

Teach me how to let my guard down  
Ain't gone bad lets spend time  
Thought someone I had, was the answer to my prayers  
Comes around they weren't the true  
But now I've got you, tryin' to tell me  
(I'mma put it down, you gon' fall in love)

[Chorus]

If you put it down right, like the way I want it  
Play you're cards right, maybe we can fall in love  
If if if you put it, put it, if if if you put it down  
If if if you put it, put it, maybe we can fall in love

I'mma put it down, you gon' fall in love  
I'mma put it down down, you gon' fall in love  
If if if you put it, put it, maybe we can fall in love  
(x2)

[Outro]

If you put it down right like the way I want it  
If if if you put it, put it, if if if you put it down  
If if if you put it, put it, maybe we can fall in love
