When the stars, and the moon
And the sky, fall through

I'd throw them all away when I'm hollow
Deep as the sea goes, all I know is
I would throw it all away...away
[Throw It All Away Lyrics On]
In my restless hour I'm holding
The words you say that lay my soul to sleep
I dream of buildings that burn
The sky turns black I toss and turn

When the stars, and the moon
And the sky, fall through

I'd throw them all away when I'm hollow
Deep as the sea goes, all I know is
I would throw it all away...away

This love branches out like an oak tree
Reach for the sky and roots to the sea
So when you're shaken down and broken
Find some peace of mind in knowing

I'd throw them all away when I'm hollow
Deep as the sea goes, all I know is
I would throw it all away...away
