"What You Need"

Visit "[What You Need](#)" on MotoLyrics.com

I want to take you away, where youâ€™ve never been,
never been
Making sweet love where the water falls, water falls
All over us at the perfect temperature, the sky so sunny
Do you hear, do you hear, the way your hips playing
If you listen close, you can hear them saying
That my eyes and my lips got something that they both
wanna do to you

Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what
Iâ€™ll be in the kitchen, in your favorite position
Iâ€™ll be in the kitchen, in your favorite position
Iâ€™ll be in the kitchen, come, come, come and get
me
Iâ€™ll be in the kitchen, come, come, come and get
me

Fire, fire, candle, candle, I burn
Just enough to make it hot
I donâ€™t wanna shoot between the moon
I wanna shoot you there first
Take off, all my clothes in exchange for you
Saying sexy words in Spanish (yo quiero tu)
Yeah baby boy youâ€™re so mannish
So go and lay your head back let me blow this on for
you

Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what
Iâ€™ll be in the kitchen, in your favorite position
Iâ€™ll be in the kitchen, in your favorite position
Iâ€™ll be in the kitchen, come, come, come and get

me
I'll be in the kitchen, come, come, come and get
me

Minds bursting everywhere all over my body
Free to admit, I didn't have some good
But never like this, uuu
You're so romantic sometimes, you run away with
my mind
And what I give to you, they'll never know,
they'll never know
I'm your nurse, your masseuse, I'm your chef,
cook for you
Guess what else I've got

Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what
I'll be in the kitchen, in your favorite position
I'll be in the kitchen, in your favorite position
I'll be in the kitchen, come, come, come and get
me
I'll be in the kitchen, come, come, come and get
me
Yeah, yeah, yeah, yeah, yeah, yeah.
