Brandy

Don't even think about callin' me crazy

You know you peeped that lady, yeah (Yeah, yeah,
yeah, yeah)

And when I turned and look at you, you tried

To play it off but I can tell that you two were friends
(You, two, ah)

She was just too nervous

She was lookin' like she was hurt

Like the memory had surfaced (Yeah, yeah, yeah)

It kinda got her pissed (Yeah, yeah)

I'm kinda wonderin' myself

And your really no help me

Tell me: How you two know each other so well (Yeah,
yeah)

Cause I wanna know now (Yeah)

You better start talkin' (Yeah, yeah)

Who is she to you (Yeah)

Don't lie to me

Who is she to you

My eyes can see

Something's going on between you two (Somethin's
goin' on)

I think you better let me know

That's fa sho (Yeah, yeah, yeah)

Who is she to you

Don't lie to me (Don't lie)

Who is she to you
My eyes can see
Something's going on between you two (Somethin')
I think you better let me know (Oh)
That's fa sho

No matter how hard you try you can't hide it
There's no way you can deny it, oh no no (Yeah, yeah,
yeah, yeah, yeah)
Then you wanna flip and call me insecure
I'm only buggin' because you are so suspicious (Are,
so, yeah, yeah)
Then ya say I don't trust ya
Can't understand why I would cuss ya
And come off so demandin'
But baby I can be, yeah (Yeah)
Now tell me why did you not say
You're wrong in the first place
For lookin' too hard over that way (Hard over that way)
And you better tell me what the deal is, oh (Yeah, yeah,
yeah, yeah, yeah)

Who is she to you
Don't lie to me (Who is she)
Who is she to you
My eyes can see (My eyes)
Something's going on between you two
I think you better let me know
That's fa sho (Let me know)

Who is she to you
Don't lie to me
Who is she to you
My eyes can see
Something's going on between you two (Somethin's
goin' on, yeah)
I think you better let me know
That's fa sho (See you better)

Damn right I wanna know her name (Ah)
Tell me how you know her baby (Ah)
Why did she make that face (Ah)
You were so ashamed (Ah, ooh)

What are you not saying boy (Ah, ooh)
I'm really not playin' boy (Ah, ooh, ooh)
Gotta know right now (Ah, ohh, ohh)
You better start explainin' boy

Who is she to you
Don't lie to me (Who is she)

Who is she to you
My eyes can see (What did you do)
Something's going on between you two
I think you better let me know
That's fa sho (Did you dump her)

Who is she to you
Don't lie to me (Did you love her)
Who is she to you
My eyes can see
Something's going on between you two (Did you ever
do her)
I think you better let me know
That's fa sho (I wanna know)

Who is she to you (Baby)
Don't lie to me (Don't lie)
Who is she to you
My eyes can see (Tell me the truth)
Something's going on between you two (Oh, yeah it is)
I think you better let me know (Let me know)
That's fa sho (Let me know)

Who is she to you (Who is she)
Don't lie to me
Who is she to you
My eyes can see (I can't see you and her)
Something's going on between you two
I think you better let me know (Go on)
That's fa sho (For sure)
