chorus*

Who would ever thought a guy
Would want a girl like me
Who would ever thought that i would fall so easily
Who would ever thought that we will finally come to
be i guess they just don't know,how much you mean
to me.
Who would ever tought that they would have some
words to say well go on anyway it's allright it's okey
Take what ever comes our way together we will stay
I got three words to say
Never say never

verse 1

I can't belive they stopped our happiness
By tryin' to pull us down with such a mess
Why can't they let us live just like the rest
And keep us out from all these crazy madness
Now when they talk i think it's just a shame
That all they do is sit and think my name
When all that i do is mainly
Sit and think about my baby and me

Maby they can't belive that you and me are together
That's why they should have never
Never say never
There were times when we thought that you and me
could never be together
Thats why we should have never
Never say never say never

chorus

Now there's a lot of talkin' goin' 'round
About the way you and me gettin' down
What are they jealous are they hatin' me
I guess they all have their own PhD's
I wish that they just stop sweatin' me
Stop try-na get the best of me

No matter what they say baby
Gotta move on cuz' we're gonna be happy

We didn't let the thoughts that we had
We didn't let the words that they said
Keep us from the love we now have
Never say never
Simply for me to see when
Never would been never fallin'
Now that we are together
Never say never

[never say never say never say never 8X
