Good times, yes indeed  
Sound just fine to me  
[~~~] where I want to  
Oh no can't be stopped  
Take a good look at what you've got  
[~~~] where I want to be  
Can't you see, can't you see  
I don't need anything from anyone  
Something I'll never be  
Sounds just fine to me  
[~~~] where I want to  
Maybe tonight do you suppose  
Find something new and overdose  
[~~~] where I want to be  
Can't you see, can't you see  
I don't need anything from anyone  
I just want some  
[~] good times  
Good times  
Looking out for a ride  
Anywhere would be alright  
[~~~] where I want to  
Oh no, can't be stopped  
Take a good look at what you've got  
[~~~] where I want to be  
Can't you see, can't you see  
I don't need anything from anyone  
I just want some  
[~] good times  
Good times
