Makes no difference what I do
Life touches me and I bruise
Everything straight to my head
Somehow

Coming home for no reason (2X)

Nothing but complications
You know I need a sedation
Anything straight to my head
Somehow

Coming home for no reason (2X)

Makes no difference where I go
One more time I should have known
You can't reach me anymore
Not now

Coming home for no reason (2X)

Makes no difference what I do
Life touches me and I bruise
Everything straight to my head
Somehow

Coming home for no reason (4X)
