[ CHORUS ]

What goes up must come down  
But nothin ever changes for miles around  
In the 'burbs, the burroughs or even the towns  
In the city  
It's a pity

[ VERSE 1: Mondo ]

See, it's hard livin in Sodom where the minds are rotten  
And worse in Gomorrah where shorties are concubines  
See the women dress Philistine style  
Lookin high-minded and butt-naked hopin the black  
king sweat it  
The latest attraction is this hooker tryin to gain  
A pleasant favor of the townsmen while jealous women  
frownin  
Women battlin, women can't stay legit  
Cause if they want the king's favor, got to work hard for  
it  
Now the godly women with their modest attire  
Envies Jezebel with her gold and sapphire  
Now check the next scenes and transpire  
Cause Erica tries to fit the women's model image of  
America  
She had her mind and morals together  
She's at the age to find a husband  
And couldn't find not on under the sun  
"Am I goin to be single 'til I'm 40?  
I know this Jezebel gets a (aiyo shortie!)"  
She contemplates her life, makes a purchase of jewels  
Some miniskirts and now she's breakin fool  
To get a little more attention  
Add some gloss to the lips and to the dome rocks  
extensions  
I can't forget to mention the whole block ran up in her  
like a sinner  
What a pity, no more virgin's committee  
She's the newest Jezebel hooker takin the throne  
Don't fall for the Sodomizing syndrome  
It goes

[ CHORUS ]

[ VERSE 2: Vex ]

I'm on the block, out of nowhere were police with  
Glocks  
In riot gears bustin shots as the spot gets hot  
I bounce right on a sidestreet, people run in a flurry  
My vision is blurried as I scury, nobody heard me  
Cause I move like stealth, yo, they takin my property  
But my life is my wealth, my heart's thinkin for self  
Adrenaline off the shelf and in full activation  
As I turn on my thinker, catch a jake in my blinker  
He bust three shots, they dropped like sinkers toward  
my knee caps  
I ease back, they ricochet off the jeep to where he's at  
It freezed that demon with sudden death  
I broke left and choked breath at the stop for the F  
Then I feel the train below my feet  
?????? up out the street  
It was Sodom & Gomorrah

[ CHORUS ]

[ Tysha ]

What goes up must come down  
What goes up must come down  
What goes up must come down  
What goes up must come down  
Oo-oh  
Down  
Oo-o-oh  
Down
