Everyday I wake up smiling,
Wonder what today will bring
When your calling, it reminds me
I can take on anything
Out the door and to my feet yeah
And I don't have time to breathe
Cause I don't care anymore

Caught up in everything
Can't help what's happening
I'm having so much fun,
And the fun's just begun
On the ride of my life
But I dream about you at night
At night yeah

What a place that we've both been in
And as perfect as it seems
Coming out from all directions
And it's overwhelming me
Can you help me find my way out
Se can hide behind the scenes
Cause I don't care anymore

Caught up in everything
Can't help what's happening
I'm having so much fun,
And the fun's just begun
On the ride of my life
But I dream about you at night

I'll find a way to make my dreams come true for me
(yah yah yah)
I used to be afraid but not anymore

Caught up, fed up, wake up, you don't know me
Hot guy I don't know why you try to control me

Caught up in everything
Can't help what's happening
I'm having so much fun,
The fun has just begun

Caught up in everything
Can't help what's happening
I'm having so much fun,
And the fun's just begun
On the ride of my life
But I dream about you at night
But I dream about you at night
But I dream about you at night
But I dream about you
At night
