Hey yeah

I was at my locker all by myself when my crush came to
me he said
Do you wanna hang with me tonight
We could take a walk or just sit tight
'Cause lately I've seen you runnin' around and I noticed
you a whole lot more
I just wanted to carry your books
Walk you to class maybe open the door

My heart was beating to the words he spoke
Could I be dreamin'
What I was seein'
It almost seems like heaven's smilin' at me
Now I'm flyin'
There's no denyin'

My crush and I
Finally we're goin' out together
My crush and I
I wish this night could last forever
My crush and I
All this time it's been our destiny
Ooh
My crush and I

Then that night when the doorbell rang I thought for
sure he was there
Had my cute little silk dress on
The one my mother never let me wear
I almost flew down a flight of steps to open up that
front door
No one there but the neighbor kids and my heart sunk
deep into the floor

He said he would but he just never came
Why would he do this
Put me through this
If I feel sorry for myself he wins
I'm sick of cryin'

And tired of tryin'

My crush and I
We could never be together
My crush and I
Maybe I just shoulda known better
My crush and I
Wish I could stop thinkin' about it
Ooh
My crush and I

I turned around and hung my head down low
I felt all by myself and all alone
Then he came up behind me quiet and said
Sorry I'm late
I lifted my head
It's you

My crush and I
Finally we're goin' out together
My crush and I
I waited for this moment forever
My crush and I
And all this time it's been our destiny
Oh
My crush and I

My crush and I
Finally we're goin' out together
My crush and I
I wish this night would last forever
My crush and I
And all this time it's been our destiny
Oh
My crush and I
