I'd like to take you home girl, and make you mine.
I'd get you all alone girl, and take my time.

Think how you feel in your heart when you climb to the
top of,
Of a big roller coaster ride.
You're gettin' high on desire worth waitin'
On the other side.

I'd like to treat you nice girl, and treat you mean.
I'd get you on your own girl, and fill your dreams.

Think how you feel in your heart when you get to the
fall,
Of a big roller coaster ride.
That's how it is and the way that it would be
If you come with me.

Blue satin pillow,
Black satin silhou-
ette on the window
Shade of the night.

Soft light a glowin'
Sweet night a goin'
Out like the candle's
Flickerin' light

You know by now it's your love that I'm after
And I don' want no alibi.
There's just no need to take no for an answer,
Yes is in your eyes.

(fading ...)

I'd like to take you home girl, and make you mine.
I'd get you all alone girl, and take my time.

I'd like to treat you nice girl, and treat you mean.
