Where are you now?
So alone, so empty
And you find yourself,
Wondering where everything went wrong
So much hate inside you
I can see it in your eyes
Don't try and hide it, don't try to escape
Just ask for help, as I know you really need it
And I blame myself for what you have become
If I never changed we would be like before, I'm so sorry
Still alone, still empty, and you find yourself,
Wondering where everything went wrong,
When will you wake? and take a look,
The mirror, your reflection, will show you
And I blame myself for what you have become
If I never changed we would be like before
I feel that it's all my fault

So please promise me one fucking thing,
You will change that's all I ever wanted to hear,
Please promise me, you will change
That's all I ever needed to hear
Please promise me, you will change,
Just let me know that you will

Don't let this be your weakness, I know you're better
than that
You can never start again, but it's not too late to
change
Don't let this be your weakness, I know you're stronger
than that
You can never start again, but it's not too late to
change
