My tears, they are for you, they are all for you  
My fears, remind of you, they all remind me of you  
My years, wasted, wasted because of you  
My pain sears through my body, causing my tears  
My pain it is all because of you, what you did to me  
My brain, screwed up, memories of you in me  
My claim of my own life, it doesn't belong to me  
My pain sears through my body, causing my tears

My screams ring out throughout my life  
My dreams shattered, my hand grasping this knife  
My streams of my remains, nothing but strife  
My pain sears through my body causing my tears

(Chorus)

I can't stop any of this, only you can stop this  
Only you can kill this pain, by saying you're sorry  
What you did to me, stop it with a kiss  
Please, I'm about to break down hurry  
Stop these tears, please, I can't take it  
Stop these tears, please, I can't take it

My tears, they are for you, they are all for you  
My fears, remind of you, they all remind me of you  
My years, wasted, wasted because of you  
My pain sears through my body, causing my tears

This void, this void is my life  
I am nothing, I am worthless and without a name  
Only you can fix my life  
Don't make the same mistake

(Chorus)
