I didn't have to play detective with your words  
I didn't have to look for clues  
Your big mistake was that you chose  
To speak at all  
Now we'll play the game  
And now you'll lose

[Chorus:]  
Go on and tell me  
What you feel  
Make me believe  
In what you see  
Go on now, go on  
Lie to me

It's gettin' hard to keep a smile from my face

It's gettin' hard to look at you  
You've pushed your point until your  
Story's full of holes  
It's one more turn  
Of one more screw

[Chorus]

It seems your plans and schemes are  
Always falling through  
Cause I hear everything  
You never say

[Chorus]
