I'm cold and broken

It's over - I didn't want to see it come to this
I wonder if I will ever see your face again
And I know that I will find a way to she'd the skin
It's simple - I know that I will suffer in the end

Fast I fade away - it's almost over
Hold on
Slow I suffocate - I'm cold and broken
Alone

It's hopeless, the end will come and wash it all away
Forsaken - I live for those I lost along the way
And I can't remember how it all began to break
We suffer - I live to fight and die another day

Fast I fade away - it's almost over
Hold on
Slow I suffocate - I'm cold and broken
Alone

Fast I fade away - it's almost over
Hold on
Slow I suffocate - I'm cold and broken
Alone

I'm cold and broken
