Dead star shine
Light up the sky
I'm all out of breath
My walls are closing in
Days go by
Give me a sign
Come back to the end
The shepherd of the damned

I can feel you falling away

No longer the lost
No longer the same
And I can see you starting to break
I'll keep you alive
If you show me the way
Forever - and ever
The scars will remain
I'm falling apart
Leave me here forever in the dark

Daylight dies
Blackout the sky
Does anyone care?
Is anybody there?
Take this life
Empty inside
I'm already dead
I'll rise to fall again

I can feel you falling away

If you show me the way
Forever - and ever
The scars will remain
I'm falling apart
Leave me here forever in the dark

God help me I've come undone
Out of the light of the sun
God help me I've come undone
Out of the light of the sun

I can feel you falling away

No longer the lost
No longer the same
And I can see you starting to break
I'll keep you alive
If you show me the way
Forever - and ever
The scars will remain

Give me a sign
There's something buried in the words
Give me a sign
Your tears are adding to the flood
Just give me a sign
There's something buried in the words
Give me a sign
Your tears are adding to the flood
Just give me a sign
There's something buried in the words
Give me a sign
Your tears are adding to the flood

Forever - and ever
The scars will remain
