# "Simple Design"

Ohh
I live a chemical life
I'm on a mission to try
You went insane for the day
I'll have to show it away

My only option is gone
Smile as they break and they fall
You want a simpler life
You can't erase what was mine

You must be out of your mind
This was a simple design
You fuck it up every time
How could you leave me behind?
It's alright
It's alright

'Cause I know what you want
But you'll just have to wait
If I had it to give
I would give it away

I'm living it up
While I'm falling from grace
There's no way, there's no way
That I'm running away

I'm used to making it worse
Made up of four letter words
You want to know what it was ?
Now isolated and gone

You fall apart at the seams
I'll never know what it means
Try not to pull it apart
Your aiming straight for the heart

You must be out of your mind
This was a simple design
You fuck it up every time
How could you leave me behind?

It's alright
It's alright

'Cause I know what you want
But you'll just have to wait
If I had it to give
I would give it away

I'm living it up
While I'm falling from grace
There's no way, there's no way
That I'm running away

You had to be the worst for me
I don't know what to say so let me be
An' now I find you've left me behind
I don't know what to say so
Never mind
(You're mine)

'Cause I know what you want
But you'll just have to wait
If I had it to give
I would give it away

I'm living it up
While I'm falling from grace
There's no way
There's no way
That I'm running away
(There's no way)
There's no way
That I'm running away
There's no way, there's no way
That I'm running away
(Yaa)
(Yaa)
