Search for the answers I knew all along
I lost myself, we all fall down
Never the wiser of what I've become
Alone I stand a broken man

All I have is one last chance
I won't turn my back on you
Take my hand drag me down
If you fall then I will too
And I can't save what's left of you

Say something new
I have nothing left
I can't face the dark without you
There's nothing left to lose
The fighting never ends
I can't face the dark without you

Follow me under and pull me apart
I understand there's nothing left
Pain so familiar and close to the heart
No more, no last I won't forget

Come back down save your self
I can't find my way to you
And I can't bare and face the truth

Say something new
I have nothing left
I can't face the dark without you
There's nothing left to lose
The fighting never ends
I can't face the dark without you

I wanted to forget
I'm trying to forget
Don't leave me here again
I'm with you forever, the end

Say something new
I have nothing left
I can't face the dark without you

There's nothing left to lose
The fighting never ends
I can't face the dark without you

Holding the hand that hold's me down
I forgive, forget you, the end
Holding the hand that hold's me down
I forgive you, forget you, the end
