Verse 1: As you see
Things are changing
Everyday Every night
But we still are here
Living happy
Living with-out a fright

Pre-chorus: Since things are changing
We are in real danger
There's only one thing
That will really save us

Chorus: Melody Melody
It's the one thing that will set us free
Melody Melody
It will bring us all in Harmony
Yeah

Verse 2: We should hurry now

Get us going
Before bad things start
But the Earth has changed
Halfway now
We should go
Before Dark

(Chorus)
Bridge: The Earth is bad now
We must run Now

(Chorus 2x)
As you see
Things are changing
Everyday Every night
But we still are here
Living happy
Living with-out a fright___
