You was born the true pretender(
Going through your life thinking you must be the only
one
But I've seen so many like you(
Take my word for it, they feel the same, they feel the
same

[Chorus]

So take my hand and I'll lead you back on to the other
side
Get yourself into a better place and lift your life(
Hold your head up high and don't rely on anyone else(
Make it easier on yourself and don't ask why

Well, there have been so many changes(
Flowing through your life but you learn to look the other
way(
But I know that there's a better way(
Take my word for it you'll feel the same, you'll feel the
same

[Chorus]

So take my hand and I'll lead you back on to the other
side(
Get yourself into a better place and lift your life(
Hold your head up high and don't rely on anyone else(
Make it easier on yourself and don't ask why

The earth puts forth a new life again(
Green grasses grow and flowers lift their heads(
And over all the plain wonder spreads of life (of life)
(So) hold your head up high, on the other side(
(So) hold your head up high, on the other side(
(So) hold your head up high, on the other side
