You know you learn from history
To love and trust yourself to see
It's never black and white it seems
There'll be a shade of gray between

A temporary fascination with the boy next door
When he left you hurting
Saw him flirting with that girl, that whore
I know you swore you'd love no more
But you and me is something we can never ignore

Don't go running away from me
You've got your hands up in the summer baby
Don't go running away from me
You know I won't stop till we're lovers baby
Ohhhh, I've got a feeling
We're one in a million
Ohhhh, I've got a feeling
We're one in a million

You'll never feel if you don't believe
That love and lust can't disagree
They'll tear our hard hearts at the seams
Pick it up
I got the remedy

A temporary fascination left you on the floor
And now you're certain thinking love is what you can't
afford
I know you swore you'd love no more
But you and me is something we can never ignore

Don't go running away from me
You've got your hands up in the summer baby
Don't go running away from me
You know I won't stop till we're lovers baby
Ohhhh, I've got a feeling
We're one in a million
Ohhhh, I've got a feeling
We're one in a million

I was waiting for the right time, oh oh

I'm thinking it's about time, oh oh
I'm waiting, I don't wanna leave
Without you

Don't go running away from me
You've got your hands up in the summer baby
Don't go running away from me
You know I won't stop till we're lovers baby
Ohhhh, I've got a feeling
We're one in a million
Ohhhh, I've got a feeling
We're one in a million

You've got your hands up in the summer baby
Don't go running away from me
You've got your hands up in the summer baby
Don't go running away from me
