(spoken):

How do you live with a broken heart & only a memory?

(sung):

I'm sad we parted

(spoken):

& I know what's in store for me

Hurt a little every day--that's what I'll have to do

Hurt a little every day till I can stop loving you

I'll be so upset, never will forget

The love that I shared with you

Turn & walk away, what is there to say?

Nothing more I can do

Hurt a little every day, time can heal every wound

All the pain will go away, I'll forget someday soon

Give a little smile, that should last a while

Until I stop loving you so

Maybe you can say "Let's call it a day"

But how can I let you go?

Hurt a little every day, cry a little every night

Till I stop loving you, stop loving you, oh oh

Give a little smile, that should last a while

Until I stop loving you so

Maybe you can say "Let's call it a day"

But how can I let you go?

Till I stop loving you so, oh

(repeat & fade):

Hurt a little every day, cry a little every night
