"Together Till The End Of Time"

Visit "[Together Till The End Of Time](#)" on MotoLyrics.com

In a world filled with so much sorrow
Everyone is thinking of himself
So little time is spent on planning for tomorrow
& no one really seems to care
Now it's so easy to be lost in a land
Where no one wants to help you, no one tries to
understand
But we'll hold hands forever
& we'll make our plans together
Till the end of time, darling
Till the end of time, my sweet darlin'

By your side I'll always be, though things be good or
bad
From now until eternity, I'll do anything I can
To make you happy when you're feeling blue
Should you ever have to leave me, I'll wait for you
& we'll hold hands forever
& we'll make our plans together
Till the end of time, darling
Till the end of time, my sweet darlin'

(instrumental)

Now don't you worry
I'll make you happy when you're feeling blue
Should you ever have to leave me, I'll wait for you
& we'll hold hands forever
& we'll make our plans forever
Till the end of time, darling
Till the end of time, my sweet darlin'
(Till the end of time) we'll be side by side
(Till the end of time)
...& fade
