Alone and misunderstood
That's why I came to you
The feelings I have inside
With you, I can't hide

I see that life's a game
Get hurt, but who's to blame
I guess I'm just a child
In a world that's very wild

Refrain

Where can I find a place that's full of tenderness
I get there when I close my eyes and hold and pray
That you and I will be there

Chorus

Someday, I say
We'll make a brighter day better than our yesterday
Someday, I say
We'll make a brighter day but today's our chance to
be there
(this is our chance to be there)

Is there a room for change
There are things to rearrange
I thought that we are so young
And temptations are strong

But I've got to start with me
It's hard but let it be
It may take some time
Fixing up a perfect life

Refrain

Where can I find a place that's full of tenderness (tell
me, tell me)
I get there when I close my eyes and hold and pray
(pray)
That you and I will be there

[repeat chorus]

Bridge

Once in a while, you get down and get wild
Set the rain hope so I took some dope
What happened to your start, not a dumb old fun
I had renewed my faith, better not be late
?cause I hate to go back again wasting my life and sin
I got my lord to obey now, so I say now
Take a ride home, go, take a ride home, go
Back to the father

[repeat chorus]

To do the chance to be there
Someday, I say
But today?s our chance
We?ll make a brighter day and today?s our chance to
be there
