STARING EACH OTHER DOWN

(Chips Moman - Bobby Emmons)

Â« Â© '82 Songs Of PolyGram, BMI / Tree Publishing Â»

You're hangin' on his arm she's holdin' mine a fool  
must have said love was blind  
We're shouting I love you's with people all around and  
they don't hear one sound  
Let her eyes do the talkin' and her eyes do the walkin'  
And her eyes do the slipping around staring each other  
down  
And we're both on to how long a slow song would be for  
us now  
This timebomb we're holding is so near exploding right  
down  
So let her eyes do the talkin' and eyes do the walkin'  
Her eyes do the slipping around staring each other  
down  
Staring each other down
