"Summer Day"

Visit "[Summer Day](#)" on MotoLyrics.com

Too happy to wear shades on a hit parade
Too happy to sit down in an airplane

We're riding along
Going away
Singin' a song for a summery day

Come out and feel the sun
Shine down on everyone
Come out see the colors play
If you love the summer day

Goodbye to this boredom

Stuck in my room goodbye
Goodbye melancholy and the rainy day gloom

Riding along
We're going away
Singin' a song for a summery day

Come out and feel the sun
Shine down on everyone
Come out see the colors play
If you love the summer day
