A thousand miles up the road  
I read the letter you wrote  
I stand with the feet on the edge  
'Cause nothings right in my head

Fly me to the moon  
'Cause all this here reminds me of you  
If I can't share your breath than I'm as good  
As good as dead  
Fly me to the moon  
If I can't be with you

A thousand places we've been  
We dream of cities that we wanted to live  
Why did HE take you away  
Why couldn't I go in your place

Fly me to the moon  
'Cause all this here reminds me of you  
If I can't share your breath than I'm as good  
As good as dead  
Fly me to the moon  
If I can't be with you

Tomorrow can worry about itself X2

'Cause today I'm telling myself it'll be okay  
It'll be okay

Tomorrow can worry about itself X2

'Cause today I'm telling myself it'll be okay  
It'll be okay

Tomorrow can worry about itself X2

'Cause today I'm telling myself it'll be okay  
It'll be okay
